

ABOUT SAN JOSÉ TRAILS

San José has one of the nation's largest urban trail networks, with 61 miles developed and open to the public.

The network of trail systems offers a wide variety of experiences. Core trails like the Guadalupe River, Coyote Creek and Los Gatos Creek extend a long distance and provide an opportunity for both recreation and commuting. Edge trails like Albertson Parkway and Upper Silver Creek provide access to nature and open space for recreation. Trails like the Silver Creek Valley system offer challenging inclines and valley-wide views.
