## Super-Compliant Architectural Coatings

The following companies have informed the SCAQMD that they manufacture one or more Super-Compliant Architectural/Industrial (AIM) Coatings

Low- and Super-Compliant VOC paints are manufactured and sold by numerous companies. "Low-VOC" refers to paints that meet the regulatory limits in the South Coast Rule (Rule 1113), however many manufacturers have reformulated to levels well below these limits. These are referred to as "Super-Compliant".

In the following table you will find manufacturers that produce "super-compliant" architectural coatings and industrial maintenance coatings. Click on the company name in the table and you will be directed to a list of the specific products the company manufactures that meet our "super-compliant" VOC standard of <10 g/L.

If you would like to print the full table including all of the coatings click the link below:

- CWF - Clear Wood Finish
- F - Flats
- FC - Floor Coating
- IM - Industrial Maintenance
- NF - Nonflat
- NFS - Nonflat - Satin
- NFE - Nonflat - Eggshell
- NFSG - Nonflat - Semi-Gloss
- NFHG - Nonflat - High-Gloss
- PSU - Primers, Sealers, and Undercoaters

- RC - Roof Coating
- RPC - Rust Preventative Coating
- S - Stains
- WPS - Waterproofing Sealer
- WPCMS - Waterproofing Concrete/Masonry Sealers

This is not an all-inclusive list of super-compliant coatings available. The list is comprised from manufacturers/suppliers who have informed the SCAQMD that they can provide the super-compliant products listed.

*Note: No person shall apply or solicit the application within the District of any industrial maintenance coating, except non-sacrificial anti-graffiti coatings, for residential use or for use in areas such as office space and meeting rooms of industrial, commercial, or institutional facilities not exposed to such extreme environmental conditions described in the definition of industrial maintenance coatings.*

***The SCAQMD's listing of these manufacturers does not constitute or imply an endorsement by the SCAQMD nor does it certify their ability to meet the requirements of Rule 1113 Architectural Coatings.***
