[External Email]

James,

Thank you.

To be very clear - are the noise contours consistent with the airport master plan update, or are they from the current clup. My understanding is the two are different.

Re county process can you check in with them on their plans and timing to update the CLUP. I recall when we met with County staff they said that was in process for later this year?

Best,
Amanda

Hi Amanda,

We will follow up with our Airport Planner for the status of the Airport Master Plan. Regarding the CLUP, as you may know, it is a County document and not ours, so the document will not be integrated because of a City action. Yes the noise contours Jose provided are from the current and applicable noise contour.

San José City Hall is closed in response to COVID-19.

I am working remotely in accord with governor's and City's direction.

I will monitor email during this time.

Hi James,

My understanding is that the City has actively been going through updating the Airport Master Plan, can you help confirm where the City is in the process and how this relates to the CLUP update.

March 11, Planning commission adopts resolution to certify EIR & approve major amendment to master plan. Has this gone to City council yet?

Once City council approves, do you know how this will be integrated into the CLUP?

Also, I believe the noise contours Jose provided are the ones from the current master plan update - can you please confirm.

Best,

Amanda
