Nicolle, Planning is also setting up a meeting with DANG, prior to the SAAG if possible, to answer as many as possible of their questions, and Kim wanted you to know that she would like PRNS to do so as well.

Thanks
Tim

It was totally fine. We can help prep, and/but I think it would benefit all departments to work with them before the next SAAG meeting.

Best,
Jess

How did the meeting last night go? Their letter made it sound like they agreed to have it only reluctantly and mentioned preconditions for any future meetings.

Thanks!

FYI – we had a zoom meeting with DANG members tonight, and they would love to also talk to Planning and Parks representatives in the near future. You can coordinate through Bob Staedler (bob@svsynergy.com)!

Best,
Jess

We also plan to present the revised schedule for DSAP Google updates, outreach and adoption to the SAAG, so that will be discussed on Monday as well.

Subject: Monday Diridon All-Hands and 6-17 SAAG

Hi, in case you were not aware, we are going ahead with a SAAG meeting on Zoom on 6/17, and hope you'll be available to attend and that Nicolle and Jess and/or Ramses (DOT's call) will be prepared to answer questions on the recorded presentations and the process moving forward.

The SAAG meeting agenda will be to present the results of the online survey for each of the topics, followed by SAAG discussion and Q&A.

Also, Kim would like to preview the agenda and the preliminary survey results we have at this time at next Monday's 3:30 Diridon All-Hands meeting (there is a new Zoom link in the invitation), so we are hoping you can attend that as well – please advise ASAP if not.

Jose will be putting some quick slides together for Monday with bar charts of the survey results from

each section (just the multiple choice results so far), as well as some draft high-level summary bullets for your review. We'll do our best to get these out to you on Friday. If you're comfortable leading the discussion of your respective sections of the survey results on Monday, that would be ideal.

Thank you!

Tim
