Hi Bill,

Thanks for the clarification, and yes, this is definitely a unique project when it comes to utilities. FYI, it's unclear whether or not recycled water will be part of the project description or the extent recycled water could be used for various project sites at this point, so it's the City's understanding that the WSA should consider a worst-case scenario of no recycled water use, in addition to other scenarios as necessary.

Thanks,

Shannon Hill, Planner

Hi Shannon –

I'm conjecturing that they would like us to share the results of the WSA with them prior to approvals so that they can have an early understanding of what the WSA will say. I'm not sure

what they will do with that information or what kind of potential push back there may be.

From our perspective, we don't mind sharing the information if the City is okay, and since this is a unique situation (i.e. the self-generation of recycled water for example) it might help clarify some things.

Bill

Good morning Bill,

City Hall offices were closed from 12/24 through 1/1, so I apologize for the delayed response.

If the Google team just has clarifying questions, the City doesn't see an issue with SJWC meeting with their team, but otherwise, the applicant should not be involved with the analysis and outcome of the WSA.

Please feel free to give me a call if you have any questions.

Thank you,

Shannon Hill, Planner

Hi Shannon -

Any objection with us meeting with the Google team prior to submitting the WSA to our Board and the City? They are asking to meet with us.

Thanks,
Bill

Hi Bill,

Sorry for the delayed response to your request. The email got buried in my inbox.

No problem on submitting the WSA after your next board meeting. We can definitely sympathize with conflicting priorities.

Thanks for letting us know!

Hi David –

We are working on the Google WSA as requested in Mid-October. The WSA request came about a week before our quarterly Board of Directors meeting in October so we couldn't finish the report before that meeting. Our next Board of Directors meeting is the End of January. Is it okay to be a week or two late so that we don't need to call for a special meeting?

Thanks,
Bill

Bill,

I hope you had a great Thanksgiving. I wanted to circle back on our initial discussions back in August. My understanding from David Keyon is that the WSA for the subject project was requested by the City CEQA team in about mid-October. Would you be available in the coming weeks for a follow up meeting regarding the WSA?

Let me know if I can send any background information as I am not sure what the City provided to SJ Water. Once you have confirmed your availability, Michael Jacinto from Lend Lease, CCed, will coordinate with David Keyon and his team including Shannon Hill so they can also attend the proposed meeting.

I have CCed the Lend Lease team here for visibility. Robert Yin, CCed, you would have met during our kick-off meeting. Amanda and Paul are leading other aspects of the project. Feel free to give me a call if you have any questions at 415.660.9719.

Best,

Amelia
