[External Email]

Hello,

I am a San Jose resident who commutes in and out of the Diridon Station area every day for work. I ride CalTrain up the peninsula in the morning and park around the area that would be impacted by this project.

Its exciting to see the area getting a renovation, but seeing how congested and difficult it is to get to already, I find it difficult to imagine this project not having a negative impact for commuters in the short term.

The parking situation around Diridon is currently dominated by SAP event parking which already makes it difficult for commuters that utilize CalTrain's limited schedule to get up and down the peninsula.

Is the 'Google Project' going to do anything to mitigate the impact to existing public parking in the area?

Are the project developers going to do anything to expand the parking or access that is available to commuters?

Is it within the scope of the project to improve overall accessibility to the area?

Thank you,

Jared Mills
