Great. Thanks Shannon. Have you received any response from those you sent it to internally, regarding how this should be addressed as part of the EIR, and/or potential delays to the project schedule? Since Kim inquired about it, I think you/David will need to bring this up at your next meeting with the google team/consultant. David, let's discuss this further, as I will provide some direction regarding:

1. Addressing cumulative impacts (whether the list Santa Clara provides is appropriate)
2. VMT requirements under 2019 CEQA Statutes/Guidelines Vs Santa Clara request to address LOS, and City's CC policy 5-1 requirements.
3. Check-in with CAO regarding the Settlement agreement and what the City is required to do.

Thanks Shannon:

Have you already sent this to ESA (The EIR Consultant)?

Hi Robert and Ryan,

Please refer to the email below and attachments I sent to the project managers and the CAO last week, in case this information was not passed along.

Thank you,

Shannon Hill, Planner

Subject: Downtown West: Transportation Comments & Santa Clara County Projects for Model

Hi All,

We received a few substantial transportation comments on the NOP. Of particular interest is the 11/22/19 comment letter and project spreadsheet that includes projects that may affect the transportation model. Multiple agencies also commented on consistency with the DISC.

In addition, please note that the letter from the High Speed Rail Authority indicates they will be sending a subsequent, more detailed scoping letter. I will forward that when I receive it.

We will be posting comments on the NOP on the EIR webpage. I will provide an update to the project team with that link when we are done with that process.

Thank you,

Shannon Hill, Planner
