[External Email]

Hi Yves,

I hope you had a nice vacation.

Following up to our email chain before you left, have you heard back from Valley Water on meeting dates/times next week?

Also, we are looking for a time to meet with you for a conceptual design discussion of the LGC Trail flyover. Please let us know a time that works for you next week. At this time Michael, Marla and I are free on Wednesday the 23rd from 3 - 3:30pm.

Thanks,
Bethany

Bethany,
I'm very sorry for an error in my prior email.

I will be away on vacation starting tomorrow (9/10) and back in the office on Friday (9/18).

I will ask SCVWD staff for meeting times for the week of 9/21 and also ask who will be attending.

More to follow
Yves

Hi Yves,

I have sent an updated invite for tomorrow afternoon.

At this time, the priority meeting is with Valley Water, please let us know when you are able to secure additional meeting times before your scheduled vacation.

Thank you,
Bethany

Thank you Bethany
I would like to meet as early as possible. I will be away on vacation starting Thursday, 9/17 to the following week, Thursday 9/24. Can we consider a Friday afternoon meeting, or the following week?

If timing is critical, I'll see if we might have a team member that can join the conversation.

Thank you
Yves

Hi Yves,

In followup to our conversation last week, I wanted to reach out to coordinate a conceptual design discussion regarding the LGC Trail flyover. I've sent a calendar invite and hold for next Thursday, 9/17 at 10:30AM. Does this work for you? Please invite others from the City, as appropriate.

Thanks,
Bethany

Hi Yves,

Thank you for the constructive and insightful discussion. We greatly appreciate your time and consideration. We're happy to regroup to learn more. Including Bethany in this email to help coordinate and fold in folks on our side.

Thanks,
Michael

Michael,

Thank you for the conversation this afternoon, and sharing insights about the Copenhagen example.

Our goal is for persons travel through the area to find well-developed trail or bikeway connections to major sites like the Guadalupe River Park and Train Station.

With that in mind, I wanted to note that your question about a Ramp from San Fernando Street is a good one. We haven't studied it, but that's due to lack of time rather than an indication of infeasibility.

For northbound travel, it might work well to have people approach San Fernando Street in order to access Class IV Bikeways for each the station, or travel east to the Guadalupe River and downtown.

Please let me know if you want to discuss this topic further. I'm interested in exploring options as I know that there's a high expectation for continuity of bike / ped facilities along the Los Gatos Creek corridor.

Thank you

Yves
