Hi Cheryl,

The First Amendment is the response to public comments and any text edits to the Draft EIR. The Draft EIR and the First Amendment together will be the Final EIR.

Thanks,

David Keyon

Hi – Please remind me: For the EIR process, I’m recalling there is a Draft EIR... comments are made and staff incorporate those comments into the Final EIR ... the Final EIR goes to the City Council for certification. What is the “First Amendment”?

Cheryl

Hi Cheryl,

The timelines definitely have to change. Do we need to have a timeline graphic? Everything is in flux and I don't know if we want to put precise timelines.

Right now the public review Draft EIR is anticipated to be released in summer 2020, and the First Amendment would be Winter 2020/2021. But confirm with Rosalynn if we want these on a timeline because they are subject to change.

Thanks,

David Keyon

David and Shannon –I’m looping you in. I’m updating the graphic timeline to the [Google Project webpage](#). Do any of the timeframes for the EIR process on this graphic need to change?

Cheryl, this all looks good to me, including extending the timelines as indicated.

Thanks,
Tim

Subject: COVID message at top of Google Project webpage

Tim, John and James – Lori worked out language with Rosalynn and OED to communicate the delay impact to Diridon area projects and how we're proceeding with engagement. Rosalynn instructed me to copy/paste the language that landed on diridonsj.org to the [Google Project webpage](#). However, what is there is far more expansive than what we might want to put on the Google Project webpage. I could use your help in figuring out what belongs on the [Google Project webpage](#). I'm proposing new language (in red) for three sections of our page:

1. Proposed language for top of Google Project webpage (semi-matches what's at diridonsj.org):

The City of San Jose is currently focused on coronavirus emergency response and providing essential services to businesses and residents. Community engagement related to the Google Project and other Diridon Station Area projects is transitioning to online formats such as informational videos and online surveys. Please view the [Spring 2020 Outreach page](#) for information and feedback opportunities for Diridon area projects, including the Google Project.

For questions, please email: James.Han@sanjoseca.gov

2. Proposed language for REVIEW PROCESS section – new edits in red, and I will revise the graphic to show Planning Commission and City Council hearings in early Spring 2021. [Should I also shift the draft and Final EIR dates and the "staff report posts" dates?](#)

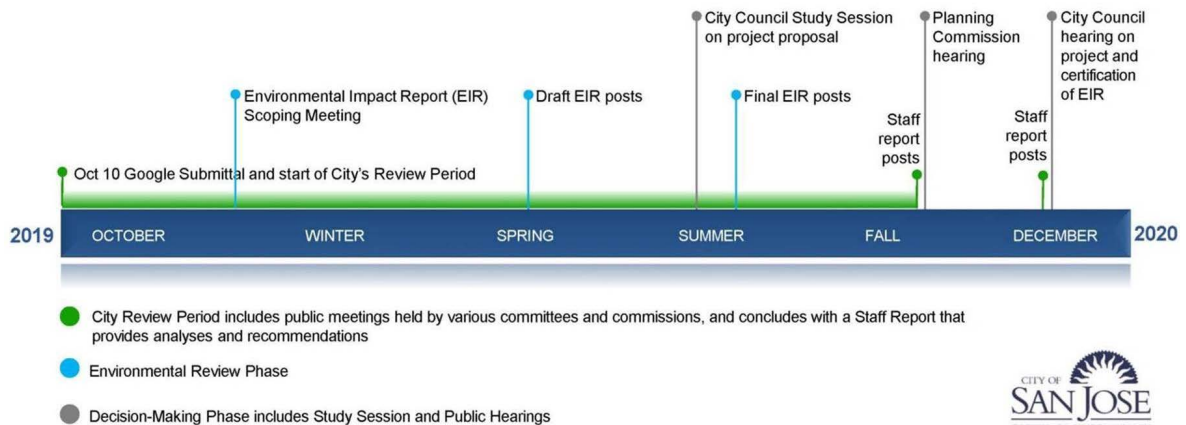

REVIEW PROCESS & REVISED TIMELINE

Given the emergency circumstances, the Planning Commission and City Council hearings on the Google's Project have been delayed by about three months, shifting from end of 2020 to early 2021. Please note that ongoing emergency response or recovery work could further affect this timeline.

The timeline below, or view a [larger timeline](#),

has been revised to

depict the City's estimated schedule for the project review. View the "Meetings & Public Engagement" section below for meeting dates and details.

City Staff Review Period - Google's submittal on October 10, 2019 commenced a City staff review period that extends through the posting of the Staff Report to the Planning Commission, **now** anticipated for

~~Fall 2020~~ **Spring 2021**. City staff across multiple departments as well as various

City committees and commissions will review the proposed project for adherence to the policies and objectives of [Envision San Jose 2040 General Plan](#) and other City policies. Find the meeting dates and details for related public meetings in the Meetings & Public Engagement section below.

3. Proposed language for the MEETINGS & PUBLIC ENGAGEMENT section – new edits in red will go at the top of this section

MEETINGS & PUBLIC ENGAGEMENT

Due to the coronavirus emergency, public engagement has shifted from in-person meetings to online engagement. Public meetings

that have occurred to date are listed below; when public meetings can again be hosted, they will appear in this section. Currently, the City is seeking online input on Diridon Station Area projects, including the Google Project, at www.diridonsj.org.

Please visit www.diridonsj.org to view presentations and then take the online survey to provide feedback. In addition to getting reactions to the concepts under consideration, the survey seeks feedback on how to balance trade-offs and get to a mix of investments that will most benefit the people of San Jose. The survey results will help inform the City's work on the Google project, as well as broader policy changes that would apply to the entire Diridon Station Area.

Please let me know if the above edits are correct for this webpage, and Dylan and I will then implement them. Also, you should know that Dylan and I are involved in creating social media posts to help publicize the DSAP/Google survey. Those will be going out this week.

Thank you!
