Thanks for checking too, Shannon! I like the aerial idea. I tried streetview but it didn't turn out very well. It sounds like Eric has some photos that he will pass along. I'll share the folder with the group as a resource moving forward.

Thanks team!
Lori

Hi Lori,

Unfortunately, I don't have photos in the environmental review folder either.

There are some photos of existing conditions with conceptual renderings of the proposed project from West Julian Street Looking Southwest, Bird Avenue at I-280 Looking Northwest, and Cahill Park Looking East in the project description of the DEIR with conceptual renderings of the proposed project, but none of the existing conditions photos specifically show the parking lots. Obviously, it wouldn't be appropriate to share the conceptual renderings of the project report until the DEIR goes public on 10/7.

Since this project is exempt from analyzing aesthetics impacts due to SB 743, the DEIR doesn't include the level of photo documentation other projects have.

Maybe the best way to show the parking lot-covered project site is with aerial Google screenshots, since there are so many? Let me know if you would like to view the figures from the DEIR to determine if they suit your needs.

Thanks,

Shannon Hill, Planner

Thanks for checking! I assume the DEIR will have photos – any chance I can extract some for the ppts (I can give ESA credit)?

Hi Lori,

Unfortunately I don't have photos of the site per your request.

Regards,

James Han

Do you guys have some good photos of existing conditions of the Diridon area? Showing parking lots, industrial buildings, etc. They would be for public presentations this fall.

Thanks!
