[External Email]

Hi Robert,

Thank you for the quick follow-up. Maybe a better way to ask the question is: What tab do we use to import into the travel demand model so that we have the correct citywide land use info by TAZ that includes the total reallocation?

**Subject:** Re: TAZ Shifts

Hi Franziska,

CSJ.2040.Amended.GP does not incorporate the results from all job shifts. That sheet is linked to throughout the file and provides data for all housing and all jobs shifts. All TAZs that have been adjusted can be filtered, and then updated for your reference. I'm also available for any further questions.

Thanks,  
Robert

[External Email]

Hi Robert,

For consistency, please confirm that we are suing the "CSJ.2040.Amended.GP" for the final citywide reallocated land use info and that it incorporates the results from the "All Jobs Shifts" tab.

Thank you,

**Subject:** TAZ Shifts

Hi All,

Please find attached the Housing and Job Shifts for DSAP and Google. Let me know if you have any questions about the spreadsheet. Sheets are separated into DSAP, DSAP+Google, DSAP+Google+4-Year, by Housing units and jobs.

This is the same spreadsheet Hexagon is using for their modeling of DSAP and 4-Year.

Thanks,  
Robert
