Hi Agustin,

For the cumulative CMP intersection analysis for Downtown West, we'll actually also need the City to update the goal-based 2040 model based on the most new 2040 DSAP volumes. When do you think you can provide that model? Time is always of essence, as you know.

Feel free to give me a call if you want to talk through,

Thank you,

Hi Franziska,

CSJ.2040.Amended.GP does not incorporate the results from all job shifts. That sheet is linked to throughout the file and provides data for all housing and all jobs shifts. All TAZs that have been adjusted can be filtered, and then updated for your reference. I'm also available for any further questions.

Thanks,
Robert

[External Email]

Hi Robert,

For consistency, please confirm that we are suing the "CSJ.2040.Amended.GP" for the final citywide reallocated land use info and that it incorporates the results from the "All Jobs Shifts" tab.

Thank you,

Subject: TAZ Shifts

Hi All,

Please find attached the Housing and Job Shifts for DSAP and Google. Let me know if you have any questions about the spreadsheet. Sheets are separated into DSAP, DSAP+Google, DSAP+Google+4-Year, by Housing units and jobs.

This is the same spreadsheet Hexagon is using for their modeling of DSAP and 4-Year.

Thanks,
Robert
