Hi Robert,

At's email below about the DSAP model and the new reallocation seems to indicate that the land uses are not finalized. Can you please confirm?

Hi Franziska,

Yes, you can get a copy of the DSAP model when we (the City) finalizes the land use data for the DSAP alternatives we need to analyze.

There are still unresolved issues with the definition of the alternatives. Once these are resolved, we need to develop the forecasts.

This may take a while. I will keep you posted.

We will be producing forecasts for:

- DTS + DSAP Amendment
- DTS + DSAP Amendment + GOOGLE

What land use alternative(s) do you need from us?

At

Hi At,

Just wanted to double check on the final 2040 DSAP model and if we can get a copy. As you are likely too, we are on a tight schedule for this.

Thank you,

Hi At,

Hope you and your family are doing well and staying healthy.

Can you send me the final model with TAZ land use allocation for the recent reallocation as part of the DSAP? We'll need that for our work on Downtown West/Google. I copied Robert at the City, in case you have any questions.

Thanks much.
