Hi Jared,

Yes, good memory! Following are the notes from Table 2 of the TA:

1. Square footage estimates assume 250 sq. ft. per office employee, 400 sq. ft. per retail employee, and 300 sq. ft. per other employees.
2. Other employment uses include manufacturing, wholesale retail, agricultural, and all other employers.
3. Limited-term corporate accommodations were analyzed as residential dwelling units

Thanks!

Hi Shannon –

Can you please remind me the job breakdown that the DTS 2040 EIR used? We were talking about how it's referenced in the DT West EIR in the Traffic analysis, but was not in the project description.

If I remember correctly it was 250 for office jobs, 400 for retail, and 300 for “other”?

Thanks,

Jared
