---

If we get a jump link that would take directly to below (screenshot). We want to link people to the survey but do not want them to just go to the webpage and have to scroll down to get to the feedback portion.

**SHARE YOUR THOUGHTS WITH CITY STAFF BY FILLING OUT THE FORM BELOW.**

The purpose of this feedback form is to collect questions and comments related to the updated submittal (i.e., project description; land use, open space, and infrastructure plans; applications for regulatory changes; and the Draft Design Standards and Guidelines). The topics of interest generally correspond to the chapters of the Draft Design Standards and Guidelines and major plan sets:

- Land Use and Building Design
- Mobility (transportation)
- Open Space (parks, habitat, landscaping, etc.)
- Infrastructure (including District Utilities)
- Environmental Sustainability

This form is not collecting comments on the Draft EIR. Public comments on the Draft EIR must be submitted in writing directly to environmental staff to be included in the Final EIR. The deadline for Draft EIR comments is November 23 at 5:00 pm. Information on how to provide EIR comments is at: [www.bit.ly/GoogleProjectEIR](http://www.bit.ly/GoogleProjectEIR).

*Disclaimers: The demographic information at the end of the form is optional to provide - City staff uses this information to evaluate outreach objectives. All comments and questions submitted through this form will be shared with staff and posted online. Emails sent to City staff will also be posted online. The City cannot guarantee that personal identifying information will be removed from public records.*

What questions do you have? \*

What resonates with you the most? \*

Best,

[External Email]

Hi James,

We have a link in the second paragraph that takes folks down to the feedback form, were you suggesting that link be moved up more?

**DAVE JAVID**, AICP, LEED AP  
Founder + Principal

*We moved to a new office, please note the updated address below.*

Hi Cheryl and Dave,

We want to make sure all the links we reference on the public notice that would be on our webpage is easy to find on the google city webpage. For the changes in the project webpage, please see attached document called “website update”.

Dave, can we create a link that sends them to the bottom of the page where the form is, so they don't have to scroll down to it? Please see the word document Diridon WebPage for a visual.

If you have any questions or comments please let me know.

Thank you,

James Han
