Cheryl,

The link the feedback form is not working, maybe there is an issue with the City now allowing links that jump. I would condense the previous submittal section and we can just create an previous submittal document section at the bottom?

Done. Link to feedback form is updated, using what James just sent.

Also, is there a reason to keep the initial Oct. 2019 plan set on the webpage? I'm concerned people will click it accidentally. If no helpful reason to keep it, I would say let's move it off the page. Or ... tuck it into a less obvious place?

Cheryl

**Subject:** Google City Web Page

Hi Cheryl and Dave,

We want to make sure all the links we reference on the public notice that would be on our webpage is easy to find on the google city webpage. For the changes in the project webpage, please see attached document called “website update”.

Dave, can we create a link that sends them to the bottom of the page where the form is, so they don't have to scroll down to it? Please see the word document Diridon WebPage for a visual.

If you have any questions or comments please let me know.

Thank you,

James Han
