They don't, but said they are happy to help identify the addresses and/or contacts. ESA could also help with that. Thus far, I have put in an inquiry to CalRecycle about e-mail vs. postal mail. I will check with our Airports group about the FAA, and with our Biology group regarding USFWS and the Army Corps. I'm not sure we know anyone at the FRA, but I will look into that.

Thanks.

Subject: RE: Addition NOAs

Hi Karl,

The City can send the NOA's to be consistent with practice so far. Yes, I agree that email is better than postal mail and is consistent with State direction during COVID. However, the Federal agencies may still be tied to and/or prefer postal mail.

Does the applicant have the mailing and email addresses and specific contacts for the agencies listed below (except the County agencies)?

Thanks,

Shannon Hill, Planner

Subject: Addition NOAs

[External Email]

Shannon and David: The applicant's counsel has identified some additional public agencies whom they believe should receive the NOA since they will be involved in permitting. These are:

- CalRecycle
- Santa Clara County Department of Environmental Health
- Santa Clara County Department of Public Health [notice has been provided to the County in general but counsel recommends notifying these two agencies in addition to others that are already on the list]
- Federal Aviation Administration
- Federal Railroad Administration
- National Marine Fisheries Service
- U.S. Army Corps of Engineers

Would you like those notices to come from the City, or would you prefer that ESA send them out? If the latter, please let us know if you have contacts for the two county health agencies; if not, we will dig up contact information. (It appears that e-mail is better than postal mail these days; would you agree?)

Thank you.
