Juliet -

As part of my work with my neighborhood association, I wanted to connect you with the Planning Consultant that we've been using to help analyze the proposed Google development. Since there is a substantial set of historic resources within the Diridon Station Area, I thought it prudent to make the connection, since I know that he has a number of questions, some of which I've been able to answer.

I thought it best to do so through my non-City email address, [edward@saumdesignconsulting.com](mailto:edward@saumdesignconsulting.com), so as to avoid any perception of impropriety. Therefore, I wanted to give you a heads-up that I'll be sending that email to you later today, and copying the Planning Consultant, Bob Staedler, as well.
