Also, I forgot to request that as soon as the missing appendix is integrated, please forward the new LTA, so I can update the website.

Thanks!

Shannon: Please see attached for the missing Synchro/SimTraffic appendix from the LTA. We apologize for this omission! Fehr & Peers has identified this as “Appendix X” because it will have to be integrated into the document, which will cause some renumbering of other appendices. However, the content is here.

Here is the comment about the SimTraffic analysis appendix data being missing.

Hi Shannon:

I'm reviewing the transportation sections of the subject DEIR for Sharks Sports and Entertainment. I noticed that *Appendix J2 Draft Local Transportation Analysis (LTA) Report* **does not contain** referenced appendix data for the SimTraffic analysis discussed in Section 8 Localized Access and Queuing Analysis.

Specifically, on page 186 there is a reference to Appendix B, which is supposed to contain calculation sheets. Appendix B in the document contains Approved Developments, so the reference here is apparently incorrect.

I note there are hundreds of LOS calculation sheets from Traffix software in the document behind Appendix B (there is no title sheet separating the information).

Bottom line is the SimTraffic analysis cannot be properly reviewed at this time, given there are no details included in the document.

Will you please look into this matter and let me know what you find?

Thank you very much,

Paul
