[External Email]

I am writing in support of Google purchasing the corner lot of Schiele and Stockton Avenues to be used as a receiver site for 3-4 historic homes now located in the Google Plan area that need to be relocated. Our neighborhood is already on the Historical Inventory, so this move would be compatible with our neighborhood and a welcome addition to our neighborhood. Saving these beautiful, historic homes are an imperative to the history of San Jose.

This decision to support this item by the Landmarks Commission will be a win win for Google and our neighborhood.

Thank you

Joanne Buckley
