Yes, thanks! Slides 72 through 76, including:

- DEIR overview
- DEIR topics, highlighting those that have at least one SU impact
- Sustainability Highlights
- TDM mitigation
- District Utilities

I will update the talking points in the slide notes – but let me know if you have any questions.

Slide has been updated to reflect December 8 deadline.

Thanks!

Lori

Hi Robert and Lori,

I am confirming that I am still presenting the Downtown West DEIR slides tonight, correct?

Also, Lori, can you update the first Downtown West DEIR slide to include the extension of the comment period to December 8?

Thank you!
