Thank you, Tim! And my apologies if I didn't correctly remember last week's discussion and confused everyone :)

There have been multiple calls with folks having to jump off and on.

Either way is fine, I had not been planning to do the DTW CEQA slides but can if the talking points are there

While we initially indicated that David should present, it was agreed that it is better for one person to do so (Kim's idea). I just checked with Tim and he said he will. David and I will be available to answer questions.

There 2 sections where environmental info is discussed. The first section is under the DSAP that Tim is covering, and then there is a second section under DTW (slides 74-76). I believe we settled on David Keyon covering this section. Let us know if that is not the case. Do you have these slides and talking points?

I don't think that was Tim's understanding. Looping him in now.

Question about who is doing Slides 74-76 on DTW, including:

- Sustainability Highlights
- TDM mitigation
- District Utilities

Hi David:

For the DEIR there were only two slides, and I believe we decided that Tim will present and then you and I will be available to answer questions. Not sure whether this has since changed.

Hi Robert and Lori,

I am confirming that I am still presenting the Downtown West DEIR slides tonight, correct?

Also, Lori, can you update the first Downtown West DEIR slide to include the extension of the comment period to December 8?

Thank you!
