Hi Ricardo,

See request below. James forwarded the original comment letter to the general google.com address. I'll send that to you directly as well.

Thanks,
Lori

[External Email]

Can I please get the name and contact person overseeing this Google village project?

Thank you for saying that. But I'm looking for who is in charge of this project so I can present this. Which would be beneficial to all.

I'm extremely concerned about what's going on with the Sharks and the Google Village

construction. Being a season ticket holder since Patrick Marleau has been in the league. I think that Google should build over on the property at the component drive and charcot avenue area. See attached. If Google insists on building near the SAP center, then I would like to see about building a new arena at the hedding and Coleman area. Also I would like to build a village with bars, restaurants, etc.

I'm currently trying to get funding to eliminate the homeless problem in this country.
