Hi John,

I met with David this afternoon, and I will be presenting the DEIR slides for this Wednesday's PC Study Session. In reviewing the slides at the following link, we are requesting that slides 27 and 28 be switched, if possible: <https://www.sanjoseca.gov/Home/ShowDocument?id=67676>.

Through experience presenting for the DSAP Study Session, it seems it flows better to group the EIR slides together with the AB 900 slide following, which provides a good transition into the sustainability features of the project.

Let me know what you think and if I should contact someone else about switching the slide order.

Thanks!
