Severino, Lori has shared a OneDrive for Business file with you. To view it, click the link below.

 [Draft Study Session_110320.pptx](#)

Hi all,

Attached is the current link to the study session powerpoint. All the hard work on the SAAG ppt is being put to good use! I also pulled from previous presentations, such as adding Desired Outcomes from the 2018 process as intros to each DSAP topic to set stage and help demonstrate how we are incorporating feedback.

Please review, make small adjustments as needed, fill in any remaining gaps, and let me know if you have any major comments or questions by Monday at 2:30. We'll then finalize the draft for Dave Sykes review on Tuesday and posting on Thursday (Wednesday is a holiday). I've scheduled one more prep session and a dry-run on Thursday for the people that I think will be speaking (please confirm/revise that plan as needed).

Notable slides that still need work:

- Background leading up to Draft AHIP ([Housing team](#))
- Review/update/format the DTW/DSG process and Land Use/Design slides ([James/John/Tim/Rosalynn](#))
- Review/update the DA slides ([Kim/Nanci](#))
- Add photos to liven up ([all](#))
- Talking points ([all](#))

Note that any talking points added to the SAAG ppt today probably did not carry through to this one, so please add to this version as well as we get closer to 11/16, keeping in mind the different audience and overall flow of the slides.

Thanks and have a great weekend!

Lori
