Subject: Re: Solid Waste

I assume you mean the crossing of streets. Let me know if there was something else.

Section 9.10.457, which states:

A. No person owning or occupying a commercial premise shall share a garbage, recyclable material or rubbish container with another commercial premise if sharing the container contributes to the transportation of garbage, recyclable material or rubbish **on or across any public street** (excluding alleys between the affected commercial premises).

[External Email]

Hi Julie,

At our recent meeting there were references to the Municode on Solid Waste.

When you have time can you please confirm the specific codes relating to franchises and streets etc.

Thanks

Paul
