[External Email]

Good Afternoon Jessica,

I wanted to reach out to you wearing my neighborhood association hat on. I recently became aware of very exciting and fascinating development that would potentially link our neighborhood with the north end of the Google project. Would you be able (and I know this is very short notice) attend our next Neighborhood Association meeting tomorrow to share a very quick update on this potentially amazing development?

If of course that does not work for you - perhaps we could schedule a time to chat so that we can gain a deeper understanding of the project.

Kind regards,

Helen Chapman

President, S/HPNA
