Yes, at this time, it is not clear what the changes would be to historic resources, for those designated and on the Inventory. After the survey work is done and the plan more in final stages, we can determine the impacts at which time it will like go back particularly if there is a negative impact, or if an HP permit is required for the one designated Landmark.

I hope this helps.

Thanks Juliet

Rosalynn,

We are most likely to head back to HLC (CEQA and HPO please correct me if I am missing something) because there might be identified Historic Structures either within or near the project site and most likely also need their comments for the draft EIR.

Best,

Tong (John) Tu

So, we will it have to go to back to HLC after this early referral?

I will send out the memo to the group by tomorrow for review. I needs to be posted one week prior to the meeting. The memo is brief at one page. This is for early referral.

Thanks Juliet

Hi - when does the staff report have to post for the 11/6 meeting? We need to allow significant time for internal review prior to posting. Thanks.
