Hi Robert and Shannon,

I'm helping Nanci compile some background context to facilitate conversation about the Fire station issue on Monday. Could you send us the following information sometime tomorrow, please?

- latest draft of the Public Services section of the ADEIR (I think this would be the City's track change version that was sent back to ESA, unless they are ready to send this section in advance of the next ADEIR submission)
- SJFD's "Fire Information Response"
- SJFD's "response-time work plan"
- SJFD's "Fire Station Prioritization List"

The last three are references in the ADEIR, so ESA should have them if you don't have them handy.

Thanks!

Lori
