**Subject:** Meeting to discuss Interconnection Application

Are you guys available next Monday, March 30, from 9:30-11:00 AM to discuss with me and Lori our next steps with the Interconnection Application? I'd like for us to zero-in on the alternative that we should recommend and define the process for us moving this forward. Other than this slot, Lori's schedule is full for the rest of the week and next Monday, so if this doesn't work for you, are you available at all on Tuesday?
