Hello Shannon and David

Yesterday I got a tour of the Google project site from ARG. They also gave me a hard copy of the Part 1 Historic Resources Evaluation Report (Working Draft), they called it a work in progress. I did a quick review and it meets our report requirements, I may have minor comments, and I think the only thing that would take time would be a request for additional information to be added that they already have or that I have already, so not much time on their part to make it complete.

Meanwhile ESA is working on the Part 2 section which is an analysis of potential impacts to historic resources, I believe that that will come next week with the first Admin Draft of the EIR.

Give me dates for when you want my comments on the Part 1 and the Part 2. My other priority project is Saint James Park which is URGENT.

Thanks Juliet
