**Subject:** CED funding to support Downtown West project

---

Hi Rachel,

Nanci asked me to contact you regarding the prospect of new funding from Google to cover Community Energy's cost in supporting the energy component of the Downtown West project.

Nanci and Kim are aware of the need and there is a meeting with Google this week to discuss in detail. Assuming we reach an agreement on the amount, the details will need to be worked into the funding agreement and budget documents for 20-21. Nanci indicated that you are the lead on this and I should coordinate with you.

Please let me know what you need from me and CED. I'm copying CED's budget manager, Allen Fong.

I'm glad to jump on a Zoom call if that is best way to discuss and move forward.

Thanks!

Kevin O'Connor
