---

Hi Liz,

I understand and had just sent out an cancellation of the meeting after talking with Jessica and Bill. I don't think this is a critical issues at this juncture, so delaying the meeting is no big deal. I look forward to hearing from you as things progress on your end. I will keep in touch with Bill and Jessica as well and will resume helping to coordinate the discussions at the appropriate time. In other words, I'll stop bugging you

Take care!

Hello Kevin,

I have conferred with the Agencies and ABC and I think we need to reschedule. We will not have the information that Google is looking for but we are working to outline our timing.

I'll keep in touch as things progress. Thanks so much for keeping us organized!

**Subject:** RE: DISC/CoSJ - F5 Co-ordination

Hi Liz,

I spoke with Google this morning and we are still working to confirm attendance to the meeting by at least one of their key staff. Assuming this comes together, an important precursor is the ability of Google's team to preview the information they requested at the last meeting. Will you be able to provide that by early tomorrow (Tuesday)? If not, no big deal; we can reschedule the meeting for next week or the week after. I don't think that we are under any time sensitivity to hold.

Please let me know.

Thanks!!!

**Subject:** RE: DISC/CoSJ - F5 Co-ordination

Hi Liz,

It looks like some folks from the Google team may not be able to make a meeting next Wednesday work. I'm confirming with them today and may need to request another time, probably the afternoon on Friday, 4/24. I'll let you know later today, but if that second slot doesn't work, please let me know now and I'll look to the next week.

Also, Google would like to have the information they requested in our last meeting provided prior to the next meeting. Can you let me know if that is possible?

Thanks,

Hi Kevin,

Apologies for my delayed response here! Shucks, I got a bit behind on emails last week.

We're still evaluating what we will have and by when relative to new data on the F5 parcel. I have gotten a schedule from the designer that we're evaluating but I hope to soon share more details. Makes sense to me to put time on the calendar to check in.

Many thanks for your help on this!

Best,

**Liz Scanlon**

Hi Liz,

I hope you're doing well.

I'm checking in to see if you have any thoughts or concerns about the information requested from Google or any information requests of them, and to see if you think having a follow-up meeting this week is realistic and/or critical from your perspective.

Let me know and take care!

**Subject:** RE: DISC/CoSJ - F5 Co-ordination

Hello Paul,

Thank you for following up with your summary of the action items coming out of last week's meeting. I've copied Liz Scanlon from Kimberly-Horn so that she can share and process the information with her design team. I've also included CSJ staff who are integral in the DISC project.

To all: If there are additional items to be captured, please submit.

Lastly, to all regarding a follow-up meeting during the week of April 6, I'm glad to arrange that and will ask that Paul/Cindy and Liz provide to me in the next few days some timeslots days that would work for your respective key staff. I will coordinate with City staff and send out a meeting invitation.

Thanks.

**Subject:** DISC/CoSJ - F5 Co-ordination

[External Email]

Hi Kevin,

Thanks again for arranging the meeting last week, it was a productive discussion. There was a couple of key follow up items I have listed below. Can you please forward on to the respective teams for action.

- DISC to provide the latest work-in-progress (WIP) rail alignment profiles, presented a the

meeting for co-ordination purposes.

- DISC to provide details/confirmation of the allowances and assumptions behind rail alignment profiles for understanding/co-ordination.
- DISC to provide overview of how the F5 interface will be addressed, relative to ROW/TCE.

We are hoping that the information above can be issued as early as possible next week - with a target of having a follow-up discussion within the week of Monday the 6th of April.

We can discuss further at our weekly meeting on Wednesday.

Kind regards

Paul
