**Subject:** RE: Draft of SO7 Tasks

---

Thanks for putting this together. I looked it over and I think it encompasses what we need done.

As we discussed yesterday, the only thing we might want to consider is adding something related to negotiating the forthcoming agreement(s) with Google if you don't think it is already sufficiently covered in SO#6 and the current proposed tasks for SO#7. Think about it; I'm on the fence but suspect that discussions and negotiations will likely continue for some time.

Please go ahead and turn the proposal into the task order format with services, deliverables and schedules, etc.

Thanks!

**Subject:** Draft of SO7 Tasks

[External Email]

Hi Kevin:

Here we are in April already and we have not developed a Service Order 7. Doug and I put together the attached draft three tasks for SO7. We tried to follow your memo to your City Council but made the wording more appropriate for a Service Order. Based upon our latest discussions, it seems like we should get started on Task 2 as soon as possible.

Please let us know whether the draft looks OK and then we will develop a cost

estimate.

Thanks, Barry
