Subject: Downtown Project

Hello Development Review Partners,

We had a coordination meeting with additional management staff and we have been tasked with providing updated comments for you respective department for the 30 Day Letter **by 10/31/19 by 11 am**. Planning will work with your departments to determine what is appropriate details for the 30 Day letter. If you feel the comments provided yesterday are sufficient, just let me know there will be no updates.

The main focus on any revised comments, should be on what information/revisions is missing at this stage for you to do your analysis right now. I understand there are major items to be resolved, but in this set of comments, we should at least note all the items so that we can properly outline/timeline the items to be resolved. We can always defer an item out of this letter. but we should clearly to the extend possible provide the list of items that would need to be addressed.

Julie and Ryan, I believe we provide a brief outline of the items needed for the infrastructure review, please include the items that were listed to be provided as part of the submittal but were not addressed or not provided.

Please also have one person from each department respond so we may limit the emails.

Thank you,

James Han
