Hi Kevin,

Thank you for the heads up. I think that this is fine. We can work with 30 minutes and at least introduce the ideas to the parties involved.

And I agree with both suggestions in 1 and 2. From our side, Russ and Andrew would be the best people for the interconnection discussion. The DISC discussion should include the regular team and we will likely want to add some folks from the entitlements team from Google.

Regards,  
Cindy

Hi Cindy,

Regarding my comments to you at the end of our meeting about connecting in the next day or two on meeting schedules, I mainly wanted you to know that our DA discussion on March 18 will need to be limited to 30 minutes since the key City players are only available from 3:00-3:30 pm on that afternoon. I didn't want to wait until Monday to let you know that since you're coordinating with your legal team. We can still cover the topic; we'll just need to be pretty succinct. If each of us can come prepared with what we see as important items to be included in the DA, I think we'll be fine. Let me know your thoughts and if we need to discuss before Monday or plan to reschedule.

Let's also discuss on Monday, or before if you think it's necessary, the additional meetings and topics we discussed today. I flagged two of them:

1. Technical staff review of Google's Interconnection Application and other information – no date discussed, but sooner the better. Maybe for 30-60 minutes after the DA conversation on 3/18.
2. DISC and Google project coordination – tentative on 3/25, 60 minutes before or after Energy Working Group Meeting? Given importance of working out the details of CSJ's Interconnection Application and the time sensitivity in getting it submitted, I suggest we keep our regular hour open for that topic.

Text or call me on my cell phone if you want to discuss before Monday [\(408\) 460-8016](tel:4084608016). Otherwise I'll plan to talk to you on Monday at 1:30 pm.

Take Care!

Kevin O'Connor
