Ok, so maybe something higher-level, simpler like the attached? I'm also fine with not including anything (or further reduced content as you/leadership see fit), just responding to Lori's request to include district systems content.

Subject: RE: District Systems Input for Community Outreach Materials

Julie,

Thanks for jumping on this. My gut reaction is that neither Google nor us is really ready to talk about this publicly except at a very high level. It's an idea with lots of hurdles. I don't see that whether Google does it's own utilities or not really is a community or outreach issue.

be

Subject: District Systems Input for Community Outreach Materials

Lori Severino (Zach is covering for her this week so cc'ing him) has asked us to provide first draft content and feedback prompts for district systems/infrastructure for upcoming poster boards or other outreach materials for community outreach meetings planned in the mid March - May timeframe. I drafted the attached as initial input and plan to send it to her by COB on this Friday (2/7). District systems really hasn't been discussed much with the public up

to this point so my understanding is that this is basically just high level detail on what's being considered and letting the public chime in with thoughts.

Let me know if you have any comments/edits before then otherwise we'll have a couple of additional opportunities to review and provide input in February before this is finalized.

We have also been asked to review some existing outreach materials so I'll go through them and identify if any require additional review by the team (via a separate email). Let me know if you have any questions. Thanks.

-Julie

District Systems and Infrastructure Team Input

Lori's Directions: Provide the following:

1. Graphics and texts for boards and slideshows
2. Updated text for the existing handouts
3. Status updates for a new handout
4. Feedback prompts

Purpose: City outreach starting at March 18, 2020 SAAG meeting and general City and partner outreach (Mar-May 2020)

Deadlines:

- 1/31/20 – Draft content
- 2/10/20 – Majority of content
- 2/21/20 – Remainder of content
- Note: 4/24/20 is Council study session

Requested Content Input (marked up to Lori's original):

1. For Board (images pending/TBD)

a. DT West – development review, including DSG (James Han)

i. Highlight Google's proposal

1. District systems and infrastructure (stormwater, wastewater/recycled water, energy, and waste)

a. Offers greenhouse gas reduction, air quality, and resiliency benefits

b. Ensuring compliance with policies/regulations and alignment with City utility infrastructure/operations

2. Green feature highlights

a. Goals of all-electric development and LEED Gold certification

b. Carbon-free power

c. Onsite renewable and battery storage

b. DSAP Update

~~c. City's thoughts on potential for ecodistrict~~

~~c. Initial policy recommendations for non-Google sites that you want to test out? Feedback prompts~~

i. Primary interests and/or concerns on the approaches planned (per above)?

Commented [BJ1]: Lori, is this meant to be about Google AND also the larger DSAP area?
