Bill, the Planning section looks accurate to me except for this bullet:

“Google will be working on their own master plan which will be a backup to the DSAP amendment”.

I believe this should read as follows:

“Google’s application includes a proposed General Plan amendment for the project area, which will be a backup to the DSAP amendment”.

Thanks,
Tim

Subject: Consolidated notes from December meetings

All,

Attached are the draft notes from the meetings with the departments end of December. Thank you once again for your time and commitment.

Please review for accuracy of your positions and needs. If you have changes or thoughts, please send them to me and I’ll work to get a final set for everyone’s use and information.

If you would review and comment before COB next Tuesday, that would be great, as we are starting to lay out the approach and issues with Google next Wednesday.
