Awww....man, you made this so much better. Thank you. I think the 10 minute walk is good. I had not included it since it doesn't tell a complete story, but I can show it and link it to the discussion of population density. See you at 7!

Hey Nicolle,

Attached is an updated presentation. I went ahead and cleaned up some of the graphics. One in particular that I wanted to highlight was the addition of the 10 min walk overlay I included on the slide that talks about the area's future. I thought it might be helpful to have on hand in case you wanted to speak to it. Let me know if you would prefer to have that removed.

I can screen share the presentation and run the slides for us this evening.

Thanks,
Zak

I don't feel like this is my best work but it's something. Feel free to jazz it up. Also, can you add a final slide that closes the presentation – can be a slide that says questions or, if you want to use the last slide to provide some questions that spark convo that's ok too.
