Hey y'all,

Thanks for a very informative, productive meeting earlier this week about our work together on the Diridon area.

I am comforted & excited to have the opportunity to work with you three in particular.

As all of us tend to do, work sometimes seeps into our brains on weekends, which is what is happening to me in this moment :)

It just dawned on me that I will need to share the grant agreement between the City and Catalyze SV with our fiscal sponsor, Social Good Fund. Social Good Fund will also need to sign off on it before it is finalized. I have already given them a heads up about possibly working with the City of SJ, so I foresee this continuing to go smoothly. Nonetheless, can I obtain the latest or final draft when you have a moment?

Thank you so much! - Alex
