---

Hello Team,

As part of the Design Standard and Guidelines, we are looking at an existing document (Pier 70 in SF) that will govern the future design and conformance check for building permits. We are anticipating to incorporate a comprehensive set of rules for any future development application and review. We will go further into details on the process and outline of a draft Design Standards and Guidelines for the Downtown West Project on Monday but prior to the meeting, can you please review and/or glance over the Pier 70 example, link below.
