**Subject:** DSAP Update - Network / CEQA Clarification?  
**Date:** Friday, March 27, 2020 3:50:24 PM

---

Hi David, Tim and Jose,

Yesterday on the DTW coordination call, David you mentioned that it would be too late to adjust improvements in the DSAP Update from an environmental perspective.

Within DOT's DSAP Update, we're working on the recommended, long term transportation network as part of the planning process now. I'm not clear on what is bounded by the NOP / project description, and want to be sure to get that clarity ASAP.

Can you help us better understand this all sometime next week?

Thank you so much!

Best,  
Jess
