[External Email]

Hi Zak,

I felt that the trail information was too much to show on one graphic so I separated them into an Open Space Diagram and Trail Network Diagram.

Let me know if this works.

Best,

Dan

Hey Dan,

Thank you so much for putting this together. Attached is a PDF with some notes for edits.

The primary note is how the trail is depicted. Let me know if you have any questions about the comments on the PDF. If the information is too much to show on one graphic, we may want to consider having a trail only graphic? Let me know what you think.

Hope your well and staying safe!

Regards,
Zak

Subject: DSAP landscape diagram

[External Email]

Hello Zach,

I've attached the landscape concept diagram and made changes to the diagram based on our call last week. I had a call with SOM yesterday and we discussed the importance of Cahill St as a frontage on Diridon. There was concern that it might get treated as a back door to S Montgomery as the frontage. I've giving it a different color in the diagram to give it more importance as a North South Spine Take a look at he language in the key and let me know if I'm describing the feature correctly.

Talk soon,

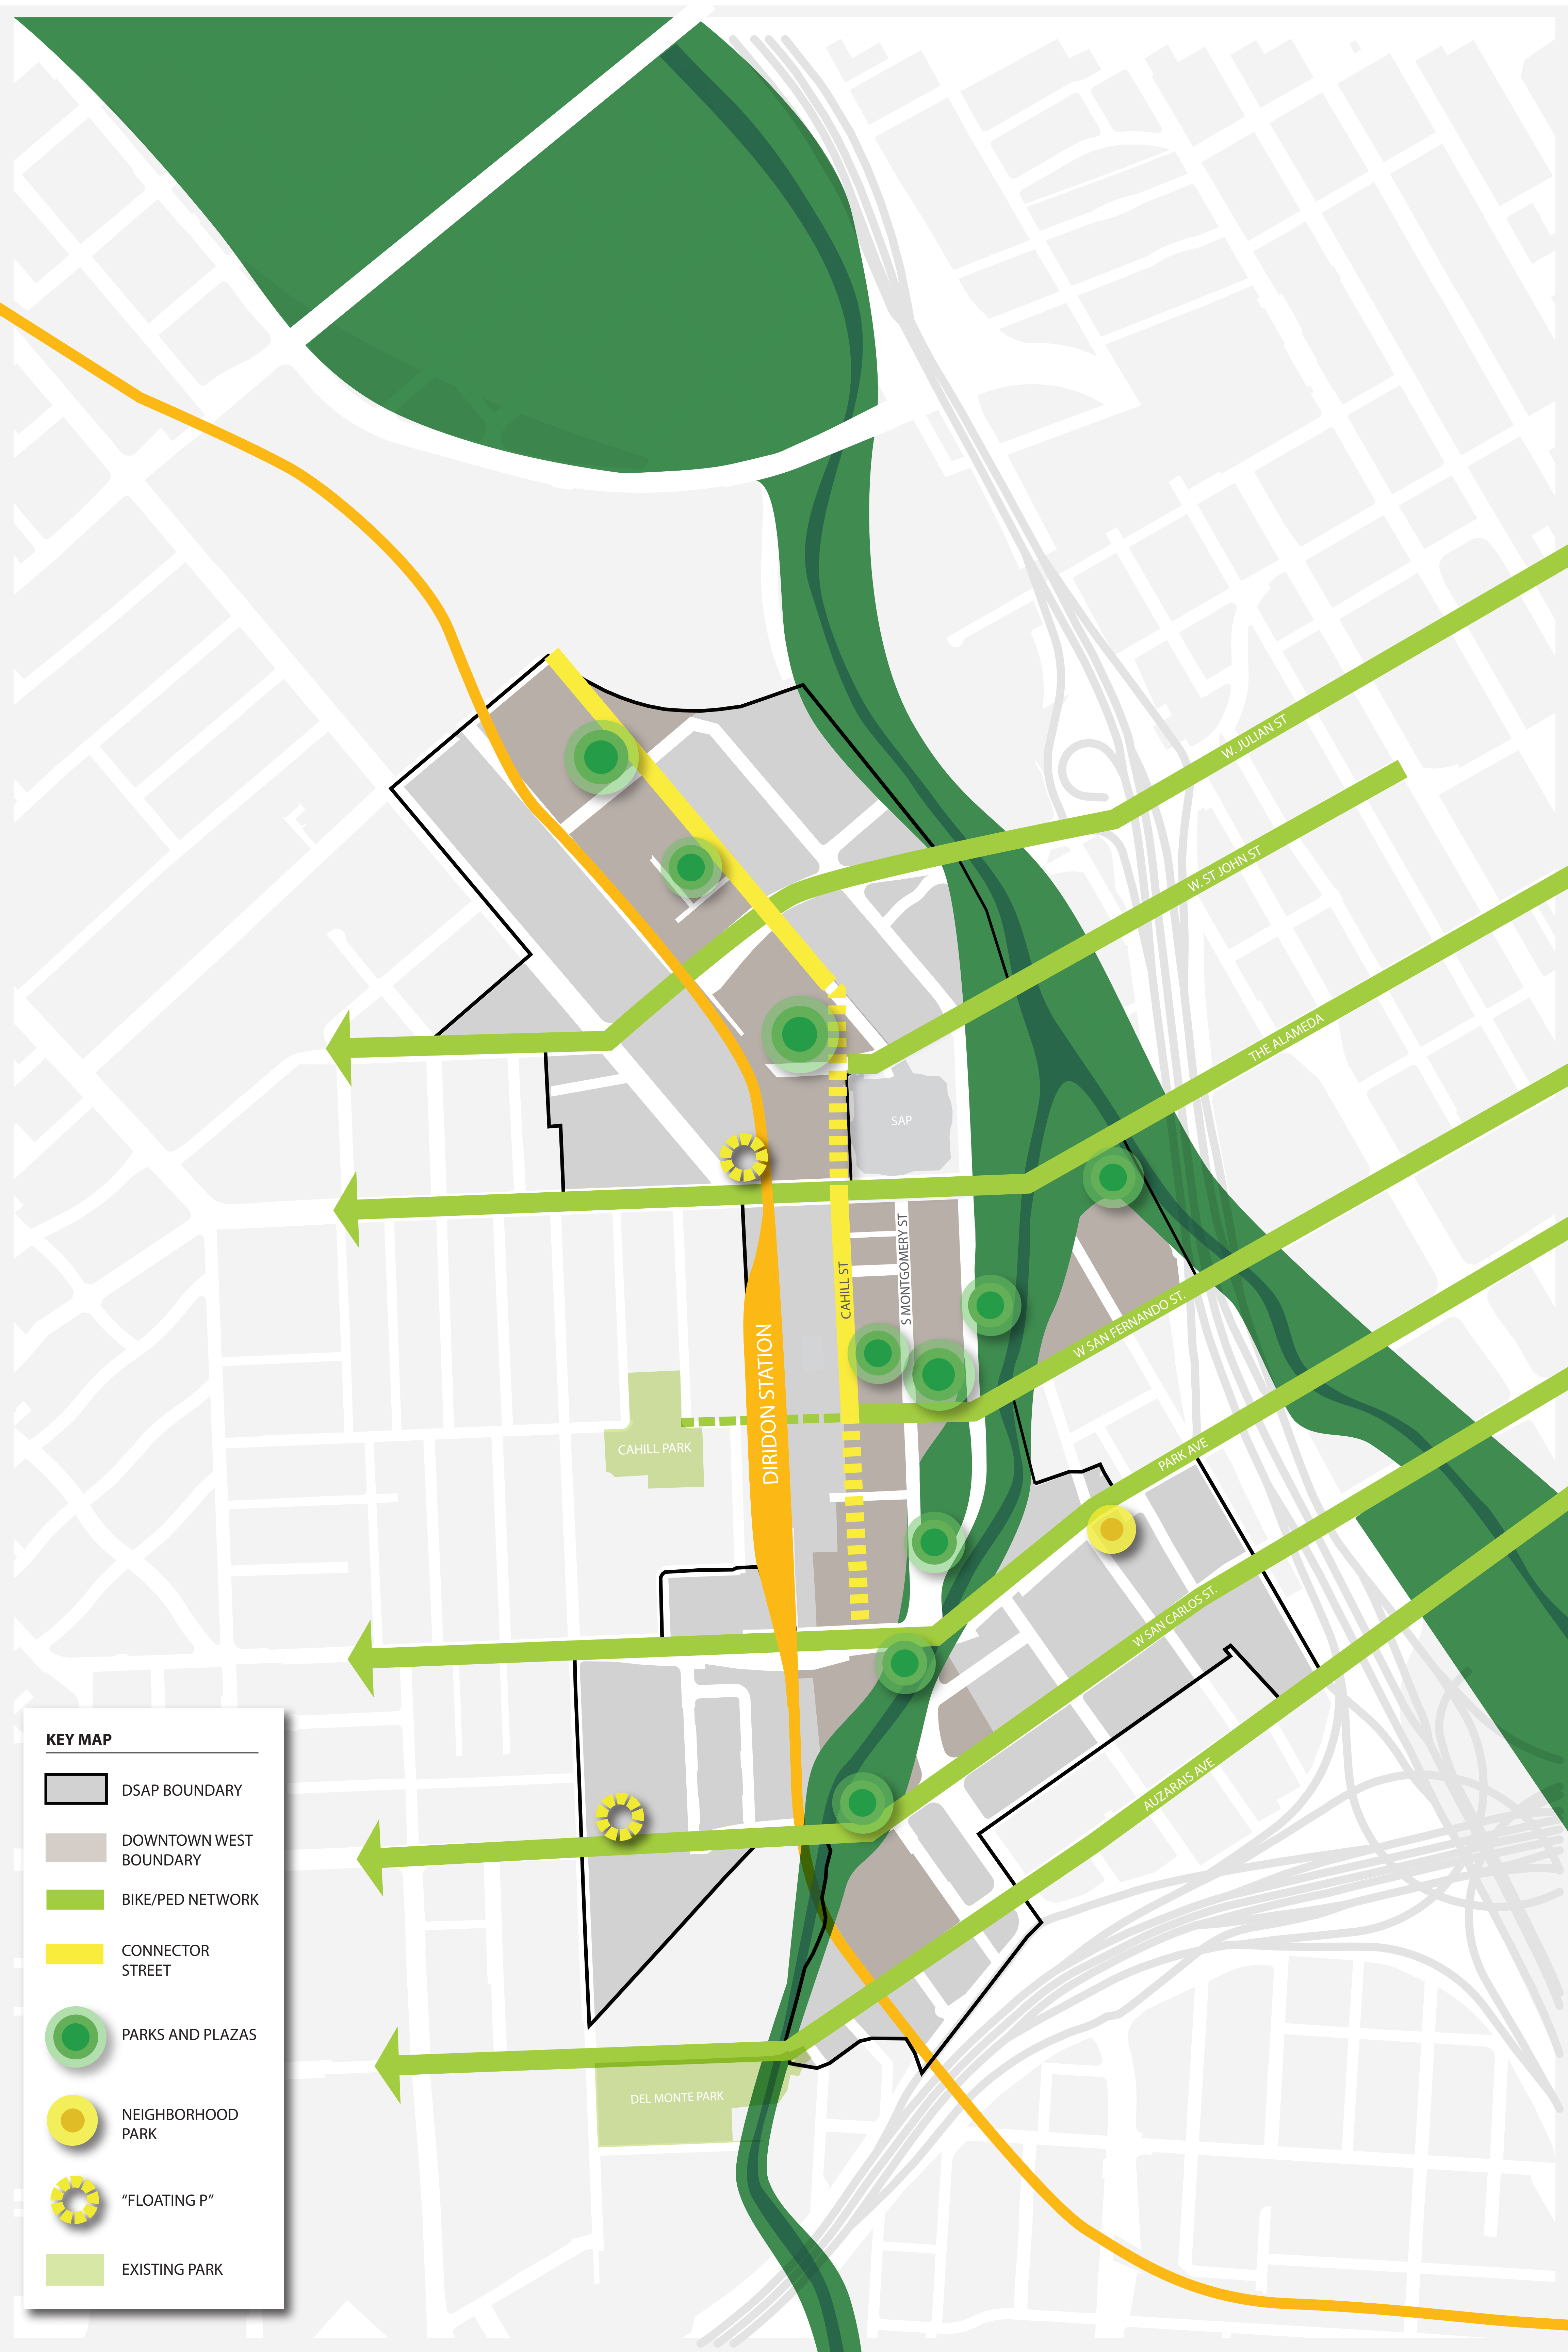

Dan
