Hi Bill,

Google has yet to agree to fund the additional work need to perform the PG&E studies and complete the service analysis and agreements related to the City's interconnection application. I'll be talking with Cindy today and expect to hear their final decision on the funding. Once they agree, we will collectively engage PG&E to advance the studies as needed. I'll keep you posted.

Kevin,

Feels like a long time since we've talked. Can you confirm agreement with Google on an amount of their contribution to your efforts with PG&E?

Any meetings with Google or PG&E coming up?

Thanks,

be
