Thank you, Zak. Strange thing, though ... I don't believe I wrote that e-mail! I am guessing (but am not sure) that someone responded to my e-mailed meeting invitation and that response made it appear as though I was the originator. I think that Florin was working on revising the list of off-site transportation improvements as a result of Monday's discussion of the EIR Transportation section.

I have copied Florin here.

Thanks.

Hey Karl,

The change in the trail alignment to the west bank of the Los Gatos Creek Trail though the former fire training site is consistent with our understanding of the project. The alternative mentioned is no longer reflective of the planned trail alignment, so removal of this language is fine with PRNS.

Thanks,
Zak

Are you ok with removing the alternate trail connection from the back of the OSH site and down W San Carlos?
