Subject: Central Utility Plants & Off-Site Improvements

Hi Karl,

If I remember correctly, the AQ team added quite a bit of text regarding permitting requirements and the odor management plan to address complaints. However, let me know if it would be helpful for me to ask about WWTP-specific permitting requirements from ESD staff or if you are comfortable with the text added.

Also, Florin indicated his edits to the off-site improvements were sent to Johnny for review, and he followed up with Johnny. Have you received the edited list yet?

Thanks,

Shannon Hill, Planner
