Subject: Diridon Station Area - update
Attachments: [Diridon to Downtown_FINAL.pdf](#)

Hi Community Members,

Here are a few updates on the Diridon Station Area:

1. **Upcoming Meetings:** We have scheduled a Station Area Advisory Group (SAAG) meeting for Wednesday, May 22, 6:30-9:00 at City Hall in the Wing Committee Rooms (118-120). The proposed agenda is:
 - Discuss the anticipated, high-level process for the upcoming Diridon Station Area Plan update, including outreach this summer.
 - Update on the Diridon Integrated Station Concept Plan: we will present possible configurations for the future station and lead a discussion on the benefits and trade-offs associated with each configuration.

The Diridon Integrated Station Concept Plan team is also going to present to the [Diridon Joint Policy Advisory Board \(JPAB\)](#) on May 17 at 3:00 at VTA River Oaks Auditorium. The presentation to the SAAG on May 22 will cover the same material as this JPAB meeting. The third round of public outreach on the Station Concept Plan, which we are planning for June, will also cover this material. Stay tuned!

2. **SJSU's "Diridon to Downtown" Class Project:** This semester's capstone class for SJSU's Urban Planning Graduate Program is studying the connections between Diridon Station and Downtown destinations. They are hosting two upcoming events where they will share their work and chat with community members. For more information, please contact Matt Gustafson at matthew.gustafson@sjsu.edu.
 - Community Open House to gather feedback: May 4, 10AM-2PM at the San José Museum of Art (see attached flyer)
 - Final Presentation to share findings and recommendations: May 15, 4-6PM at SJSU Washington Square Hall, Room 208
3. **Website:** We have posted new materials to the website, including the draft summaries of the [SAAG meeting held March 11](#) and [Community Meeting #2](#) for the Diridon Integrated Station Concept Plan held on March 25.

Please let us know if you have any questions.

Thanks!
Lori
