Lori,  
Thanks for the feedback. I'll make good use of this information to respond to Mr. Ihly's request for information.

I'm sharing this email with Vanessa, our Public Works Project Manager.

Vanessa,  
As we schedule a meeting with the HOA, let's definitely coordinate to have Lori join us. She's our Diridon expert, and can offer us great support on a topic of great interest to this community. That will allow us to focus our message primarily upon the trail under-crossing.

Thank you both  
Yves

Hi Yves,

You can direct him to [www.diridonsj.org](http://www.diridonsj.org) for upcoming activities, and specifically encourage him (and his neighbors) to attend these events:

- The City is hosting a Community Meeting on **Thursday, Dec. 5**, 5:30-7:00PM at the MLK Library, Room 225 to inform the public about the *proposed Google project*, answer questions, and receive comments to help City staff and the applicant address any project issues early on. The application for the Downtown West Mixed-use Plan and additional information on the development review process is available at: [www.sanjoseca.gov/GoogleProject](http://www.sanjoseca.gov/GoogleProject).
- The City is hosting another Community Meeting on **Saturday, Dec. 7**, 2019, 10:00 am - 12:00 pm at the Gardner Community Center to talk about *all of the major projects affecting the Diridon Station area* – including the Google project, amendments to the Diridon Station Area Plan, the Diridon Integrated Station Concept Plan, and other related planning efforts (Parks, Trails, and Open Space is one of the 6 main topics). The meetings will have light refreshments,

activities for children, and live interpretation in Spanish and Vietnamese. Families welcome!  
See the flyer in [English](#), [Vietnamese](#), and [Spanish](#) for details.

Would you like me to join you for the Monte Vista HOA meeting? It would be great to spend a few minutes to inform them about the overall Diridon program and engagement process – just to give context to the parks/trails discussion and increase awareness of opportunities to get involved. If I can't make it, I can equip your team with a few talking points/handouts to take advantage of the opportunity.

Please copy me or forward your response on the trail development question below. I have my notes from our meeting, but always like to know exactly how the team is answering questions for future reference.

As always, let me know if there is anything else I can do to help!

Thanks!  
Lori

Hi Lori,  
I need a little guidance.

Mr. Ihly seeks updates about Los Gatos Creek Trail Reach 5 from time to time. I'm happy to update him our plan development process and our intent to meet with his neighborhood.

Per his question regarding development in the area, can you direct me to on-line or meeting resources where he can learn more?

Yves

[External Email]

Hi Yves,  
Hope you are well and having a good year. I can't believe we are already going into the

holiday season.

This year has been very interesting in San Jose with the ongoing effects of the San Jose/Google transit village project. I hear the Reach 5 project is also moving along with the potential support of Google. Is this true? If so, how does that effect the timeline of getting work started. Also in mind is the meeting with the Monte Vista HOA. If you could update me it would be appreciated.

Kindest regards,  
Bob Ihly
