Subject: RE: Diridon - Interconnection service application discussion
Date: Wednesday, June 10, 2020 4:16:00 PM

Hello Nicole,

I am writing to confirm that the City has received your email and proposed waiver. We will internally review and fully respond as soon as possible.

Thank you!

Kevin O'Connor
Energy Resilience Coordinator
City of San Jose Community Energy Department

Subject: Diridon - Interconnection service application discussion

[External Email]

All,

PG&E would like to set up a call and discuss the applications both Google and the City of San Jose have submitted for large load interconnection near the Diridon area before moving further with any studies.

Since customer information and applications for service represent confidential information, in order for all three parties to discuss the applications, PG&E requires that both Google and the City of San Jose provide PG&E written consent from an authorized representative to share each other's customer and application information for the purposes of this call.

Action:

- If you agree, reply to this email stating:

I, [full name], am an authorized representative of [Google/City of San Jose] and agree to waive the confidentiality of information contained in the [Google/City of San Jose] electric interconnection service application previously submitted to PG&E. This waiver is for the limited purpose of allowing Google, the City of San Jose, and PG&E to discuss details related to the large load interconnection applications these entities submitted to PG&E for electric service to the proposed Diridon locations.

Once we receive this email from both parties, I will schedule the call.

Please let me know if you have any questions.

Thanks!

Nicole Collette
