Thanks, Karl and Becky!

Becky, only if you think the "discussion" is worthwhile.

Much appreciated!

[External Email]

ARG did not re-evaluate or present any an depth review of prior documentation for resources outside of the project site. That includes the SP Depot District and the Lakehouse district, among others.

SO, we relied on the NR nomination, the landmark resolution, and surveyor information from both Google and prior projects to determine the exact location of boundaries.

Not this simplifies things, but the DASP and the Ballpark EIR's have discussions about the SP Depot, as does the DISC. We can forward those too if you wish. The files are large (fair warning.)

Dana: The City Landmark resolution is attached. The most detailed documentation regarding the SP Depot is the National Register Nomination Form, which you can download at the link below:

[SP Depot_NR Form_93000274.pdf](#)

My understanding is that ARG did not undertake further documentation of the SP Depot. However, Becky can confirm or correct me.

Thank you.

Hi Karl and Becky,

Hope you're having a good start to your week.

I'm so sorry to trouble you. There is so much documentation for the Downtown West/Google project. I'm looking for documentation on the Diridon Station/Southern Pacific Depot Historic

District.

Since the station was previously included in the Google project, did ARG gather/prepare documentation for this resource? If so, would it be possible to forward to me?
